

RISK AND SECURITY

Edgile Quick Starts

Enable ServiceNow Risk and Security solutions within a matter of weeks

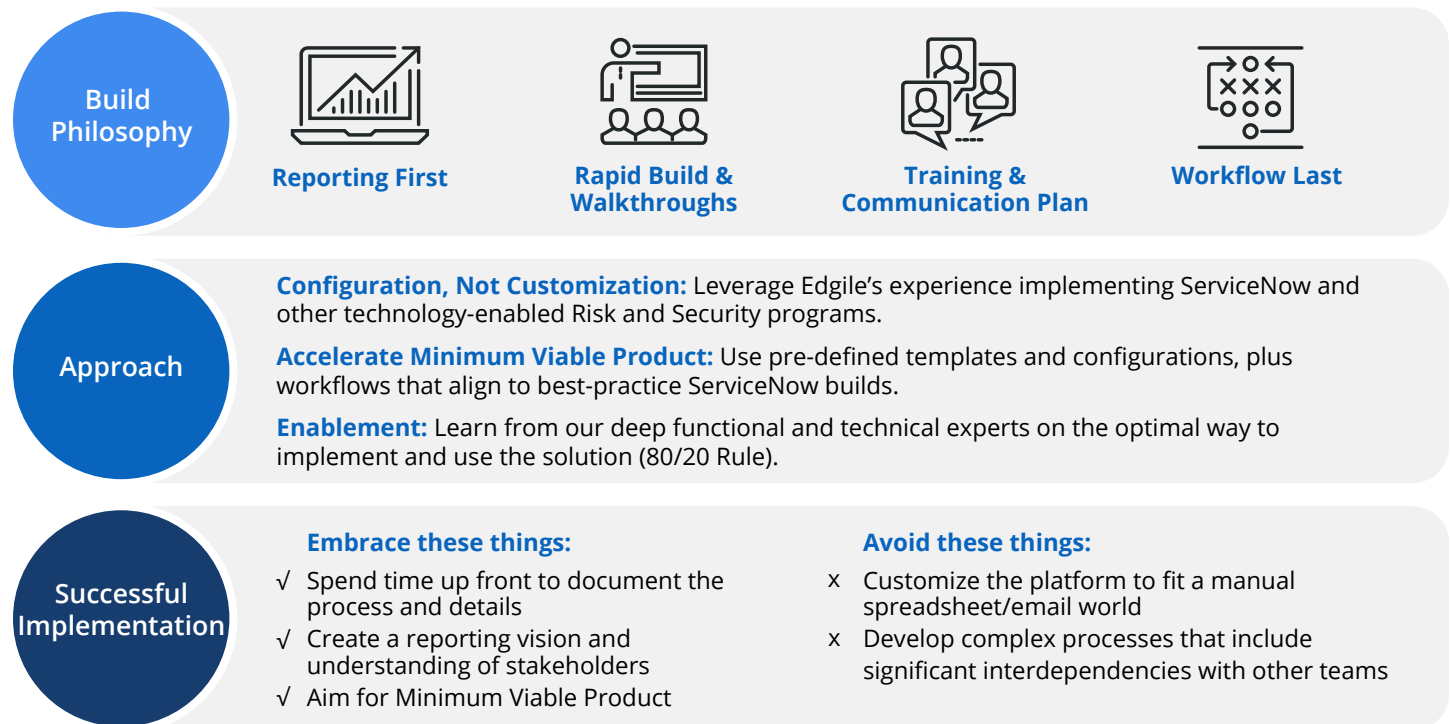

Accelerate ServiceNow Adoption

Managing governance, risk and compliance in highly-regulated markets using manual processes requires significant effort to realize value and achieve a truly integrated risk and compliance foundation.

Edgile's comprehensive approach helps clients avoid the costs of integrating content with ServiceNow creating (faster time to value) and save on the costs of on-going monitoring, updating and operationalizing the changes. Enable ServiceNow Risk and Security solutions within a matter of weeks, leveraging proven configuration accelerators and requirements templates—including our pre-built library of harmonized laws and regulations, IT Risk Register, and Diagnostic Assessments.

Edgile's Implementation Approach

Edgile's Quick Start Approach

Edgile's Quick Start program is a guided journey leveraging Edgile accelerators and templates to facilitate client-influenced solution builds that enable foundational risk and security capability in just a matter of weeks.

For each Quick Start Solution, outputs include:

- Requirements document (Business, Functional and Technical with User Acceptance Test Plan)
- Delivery of up to two training sessions for an end-user audience and a management audience
- Solution relevant inputs
- Configuration of ServiceNow solution
- Facilitation of UAT with the client
